A short introduction ... (tell us about yourself in under 50 words)	
Hello! I am 24 years old and I currently live in Oslo. I work as a medical laboratory scientist in a hospital, which requires shift work. In my free time I like to do yoga, dance, spend time in the nature and hang out with friends. I also like to be in my own company and enjoy some quiet time.	

Your Availability

When creating (self-organising) teams for collaborative work it can be challenging to find times when you are all available to work together and hold your team meetings. You can use the following table to outline YOUR schedule, then share it with others to enable you to ensure that your final team will be able to collaborate during your time in Studio.

In the spaces below, please cross out the times when you will NOT be available to work outside scheduled classes on assignments with your team. Mark ONLY genuine conflicts, such as with classes or job responsibilities.

I work shift, which means that my availability will change every week. However, I am good at managing my time and meeting deadlines, and willing to contribute for good teamwork!
