I am a senior front-end developer that is interested in Cybersecurity. In my spare time, I write code. When I am not coding, I like to go fishing and hiking. I have a fascination with how people are hacked.	

Your Availability

When creating (self-organising) teams for collaborative work it can be challenging to find times when you are all available to work together and hold your team meetings. You can use the following table to outline YOUR schedule, then share it with others to enable you to ensure that your final team will be able to collaborate during your time in Studio.

In the spaces below, please cross out the times when you will NOT be available to work outside scheduled classes on assignments with your team. Mark ONLY genuine conflicts, such as with classes or job responsibilities.
